Azure IoT Workshop

This 3 day engagement will include presentations, stakeholder interviews, analysis, demos, and hands on learning to help you create a technical strategy for your IoT Solution

Agenda

Day 1
• Provide an overview of Azure IoT Services and Azure IoT Hub
• Live demo working with IoT devices
• Define device requirements

Day 2
• Choose connectivity architecture
• Establish security practices
• Define data requirements
• Define analytics, data, and dashboard needs

Day 3
• Define web/mobile architecture
• Align appropriate Azure IoT services
• Q&A

Deliverables

• Education on Azure IoT hub and informative slide deck.
• Learning the Technical strategy for developing IoT solutions (step by step)
