

Azure Assessment

Tallan will work with you to assess your current environment and where you want to be once you're migrated to Azure. The approach we take is 3 pronged:

From this assessment you will receive a roadmap to get you from where you are now, to the cloud.

What to Expect

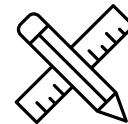

Tallan will work with your team to review existing on-prem and cloud environments. In addition, we will review best practices for deployment and app modernization and provide documentation around architecture and recommendations during this 1-2 week engagement.

During the Engagement

Agenda

- Review existing on premise environment
- Review existing Azure environment
- Review best practices for deployment and app modernization to PaaS

Deliverables

- Document "as is" architecture
- Document "to be" architecture
- Create migration plan to achieve Azure best practices
