

GETTING STARTED

Just getting started or thinking about how to manage it all? Start here! Monitoring & managing Power Apps, Power Automate, and Power Virtual Agents at your organization can be a challenge, but installing Microsoft's Center of Excellence Starter Kit and designing a Power Platform Governance strategy will simplify and efficiently support your Power Platform administration.

WHAT TO EXPECT

Agenda

- Education on Microsoft's Power Platform
- Interviews and briefings with early adopters and key stakeholders
- Installation of the Center of Excellence Starter Kit
- Assessment and review of current development and reporting technology
- A briefing on a full governance implementation program

Deliverables

- Recorded working and education sessions for future use
- Full analytics on Power Platform Suite stats, usage, app makers, licensing, environments and more!
- Discovery summary documenting goals based on current pain points and recommended solutions
- Option to design and implement a full governance program, or DIY with Tallan's support!

Whether you are in need of an assessment or expansion of your data and analytics solutions, Tallan has more than 30 years of experience in data architecture and custom analytics. Contact sales@tallan.com to get started!
