

# Application Modernization Assessment

Rationalize your application portfolio and select up to 5 applications for deeper analysis! We'll provide a cost consumption estimate, reference architecture design, and a modernization plan.

## Deliverables

### Application Portfolio Rationalization

Analyze your organization's entire application portfolio with identification of up to 5 application candidates to provide deeper analysis, including reference architecture and a modernization plan.

### Microsoft Azure and Cloud Profiling

Conduct deeper analysis on up to 5 applications to develop a modernization plan and provide real-time data on server and application performance to support a more detailed cloud strategy discussion.

### Application Modernization

Facilitate future planning through a team presentation and hand-off, with detailed performance reporting, virtualization architecture, cost consumption estimates, and support timelines to orchestrate end-of-life transitions and product innovation.

## Phases of the Engagement

### Experience Talent-Driven Innovation

Founded in 1985, Tallan provides technology and business process consulting services to enterprise and mid-sized companies, as well as government entities, with a focus on Custom Development, Portals and Collaboration, Business Intelligence, Application Integration, Mobile Platforms, User Experience, Ecommerce, Web Development, and Cloud Services.
