

GETTING STARTED

Tallan's Security Assessment is an evaluation of your resources and business objectives to audit and develop a fresh approach to your security strategy. In this engagement, we focus on foundational areas that are typically the most vulnerable. We'll assess your environment and provide education, guidance, and remediation recommendations.

WORKSHOPS & EDUCATION

A total of four workshops will cover Scope & Objectives, Zero Trust Framework, Cloud Adoption Framework best practices, and Azure/Office 365 Secure Score.

DEEP DIVE ASSESSMENTS

Following the workshops, Tallan will assess and identify security risk, gaps, and areas of concern using Azure, Office 365 Secure Score and other processes and tools. We will prioritize vulnerabilities and review remediation steps.

PLANNING FOR REMEDIATION

Review and identify unmanaged devices, unsupported operating systems, and vulnerabilities. Facilitate planning with detailed next steps like cost consumption estimates, architecture, timeline, and implementation.

Schedule time to discuss your needs with Tallan's experts and align best practices for security with your specific business objectives!
